**If you are interested in attending the Technologies for Earth Observation from Micro-Satellites Course, please attach your CV, Bachelor Diploma and certificate (including your marks) to this registration form. Your application documents will be sent to the German Aerospace Academy an Institute of the Steinbeis Hochschule Berlin who is responsible for admission and certification.**

**The registration will be handled following the rule “first come, first serve”. Because the TransNetAero Project is transnational, the places for the course are limited to 3 participants from each of the following countries: Netherlands, Switzerland, Germany, France, UK and Belgium. Registrations have to be submitted directly to the Centre Spatial de Liège. Information regarding your acceptance to the course will be sent until 31 October 2014.**
